

Build a giant nest
 Build a nest big enough for you!

Parent birds put a lot of effort into making nests that are strong and comfortable for their chicks. Have a go at building your own cosy nest.

Build a giant nest

1

Find a nice, flat patch of ground. This is where you'll build your nest.

2

Stack sticks in a circle. They should overlap each other as you build the sides of your nest.

3

Fill the middle with soft things like dead grass, feathers and fallen leaves.

4

Sit in your nest. Is it comfy? Do you think baby birds would like it?

How many people can you fit in your nest?

Feel free to copy and share this for personal and educational use – and don't forget there are loads more brilliant activities to download on our website!
